Term 4, 2022

6B

Dear Parents/Caregivers,

Welcome back to Term 4. This term promises to be very busy and exciting, with a great deal of learning ahead and assessments to complete ready for Semester 2 report cards. Outlined below is a brief snapshot of what we will be studying.

WHAT WE ARE LEARNING

ENGLISH: This term students will read and comprehend letters from different historical contexts. They will analyse and explain language features in order to plan, draft, and write a letter to a pen friend that will establish time and place for the reader and explore personal experiences.

MATHS: In maths, students will study chance, probability, measurement, number, problem solving, fractions and decimals.

SCIENCE: *Investigating Mouldy Bread*

Students will explore the environmental conditions that affect the growth and survival of living things. They will use simulations to plan and conduct fair tests and analyse their results. Students will pose questions, plan and conduct investigations into the environmental factors that affect the growth of living things. They will gather, record and interpret observations of their investigations.

HASS: Students will study Australia's global connections. This involves Australia's global connections between people and places, and how these connections affect people's perceptions of them.

PE: We will be swimming this term on Fridays. Our swimming time is 9:30 am. Swimming commences in week 2.

HOMEWORK will be sent home on Friday and **MUST** be returned completed by the following Friday. It is to be set out neatly, using a ruler and sharp pencil or pen (for those with a year 6 pen licence). Failure to do so may result in homework completed at school during lunchtime. If homework cannot be completed at home, please write a short note of explanation for consequences to be avoided. Please remember to sign your child's Homework Overview Sheet and to have a chat with them about their learning goals for this term.

STUDENT DIARIES

Students will consistently be referring to their diary this term to check their daily subject timetable to pack appropriate books in their school bags each day. This will support students to develop essential skills needed for high school. The purpose of the diary is for students to keep themselves informed of their class timetable, school notices and to diarise events, assessment times and deadlines. The diary can also form a line of communication between school and parents.

BEHAVIOUR

Students are aware and reminded every day of the Geebung State School behaviour policy. It is expected that students follow the school rules *being respectful, being safe, being a learner and being responsible* both inside and outside the classroom and in every class, they attend. Expectations for classroom behaviour and work standards remain high.
